

Vote Lucas Murrin for Vice President: Student Experience

About me:

Hi, I am Lucas Murrin a third year student studying Motorsport Engineering which I'm currently the student rep for. Since starting university in 2007 I have been heavily involved with the SU, including driving the safety bus, DJ'ing in Morals bar occasionally including this semester's Blitz warm up. In January this year I started Wii are Morals where every Sunday students get together for an epic night of Wii games. July 2009 I started the Road Trip Society. As the President of Road Trip, I have successfully organised and held over 10 events in the past three months, including trips to Bournemouth, Bath and random drives and social events including a Pub Crawl and Road Trip Quiz, whilst recruiting over 100 members in the process.

What I will do.

I am a firm believer that the SU provides a fantastic range of services for students; however, most of this work goes unnoticed. As the Student Experience Officer I wish to build on the successes of previous officers and improve them whilst recognising the work done.

This Includes:

- Improving the Safety Bus scheme - try to involve more Oxford and Oxford Brookes University students as volunteers, and promoting the services to more students.
- Liaise with the Brookes Bus - improve the services provided to students and the wider community. To ensure that the service is of a high standard.
- Maintain a close relationship with halls with the help of halls presidents - to ensure every student has the support needed for when moving into halls and for the duration of the year.
- To advertise the work and aim of each society to all students at the university and to give more opportunity to sign up societies and thus improving the societies themselves.
