

# Tim Payton

---

## Why me?

I am Tim Payton and I am currently the Vice President: Commercial Development & Communications officer at the SU.

I am also a student going into my last year studying Communication Networks.

I have been involved with the Students' Union for 4 years now. I have been a union officer, fresher's volunteer and was a lead activist with the Save Our Students' Union group a few years ago.

Due to my experience within the Students' Union as a current officer, I know I can solve problems and raise issues in the right way. As a trustee of the Students' Union, I have a vested interest to see the right decisions are made in the future and that students are represented. In my current capacity I have been one of the only officers within the last 5 years to successfully start a radio/podcast station and have listened to students views for the halls bars and made a difference. I'm not afraid to make the tough decisions that sometimes not everyone is willing to do, whether it be financial or moral issues.

I know that if you vote me in that I will continue to make a difference and represent students' opinion in a fair and balanced way, without biased.

Vote me to see the changes happen whilst you're here as a student!
